Post Resuscitation Checklist

- ☐ Confirm ROSC/ continuously monitor pulse
  - Time of ROSC: _____
- ☐ **Switch to monitor mode**
- ☐ Obtain BP - maintain systolic BP > 100 mmHg
  - Fluid challenge/ Norepinephrine PRN
  - Epinephrine for pediatrics
- ☐ Optimize oxygenation/ ventilation:
  - Maintain **SpO_2 ≥ 94%, <100%**
  - Avoid hyperventilation
    - **$EtCO_2$ 35 - 45 mmHg**
- ☐ Continuous $EtCO_2$ monitoring
- ☐ 12 Lead ECG
- ☐ Glucose Check _____ mg/dL
- ☐ Assure Vascular Access – 2 Different Sites
- ☐ Transport considerations:
  - **All Post Resuscitation care initiated**
  - Mechanical compression device (if available)
  - Assure adequate personnel
