TO: ALL JOCO EMS SYSTEM PROVIDERS

RE: Protocol App and Field Reference Guides

The JOCO Protocol App was found this afternoon to have been inadvertently updated with the HazMat team medications in the Field Reference Guide section.

****PLEASE ALERT ALL CREWS TO USE THE HARD COPY FIELD REFERENCE GUIDE FOR DOSING MEDICATION AS THE PROTOCOL APP IS LACKING CRITICAL INFORMATION THAT MAY BE NEEDED ESPECIALLY FOR PEDIATRIC PATIENTS****

We have notified the app developer and usually this is a very quick fix and we expect the situation to be resolved very soon.

We will notify the EMS System as soon as the Protocol App Field Reference Guide is correctly updated.

Thanks for your attention to this matter.

Ryan C. Jacobsen MD, EMT-P, FAEMS, FACEP
EMS System Medical Director
